THE OLD BOAT DIFFERENCE

Capture the essence of yesteryear with BriteDeck's Old Boat Collection. This stunning board captures natural variances and indentations similar to driftwood to provide a rustic look and feel.

Available in 4 gorgeous colours, these boards are engineered with extra durable WPC technology – providing the texture and warmth of aged wood with added durability and a massive 15-year warranty.

ADVANTAGES OF OLD BOAT DECKING MATERIAL

- Extra strong and ultra durable
- The widest board on the market
- Does not absorb heat, easy to walk on
- Anti-aging and UV resistant
- Easy to install, simple to maintain
- In-built fade resistance
- Incredible colour range

OLD BOAT DECKING MATERIAL COMPARED TO OTHER CO-EXTRUSION MATERIALS

The Old Boat Collection combines rustic textures and tones with an ultra thick profile engineered to withstand higher concentrated loads and Australia's unique climate. Available in a range of stunning colours and textures, this is the most versatile, durable and sustainable decking material on the market.
