

WHERE STYLE MEETS SOUND CONTROL

Enhance any space with premium Medium-Density Fibreboard (MDF) panels, designed to reduce noise, improve acoustics, and add a sleek, modern touch. Perfect for creating quieter, more sophisticated interiors in homes, offices, and commercial settings.

Premium Acoustics Made Simple

Effortless installation meets superior sound control. Our Acoustic Wall Panels feature MDF timber slats with a premium wood veneer finish, backed by high-performance acoustic felt for enhanced sound absorption.

Designed for both walls and ceilings, they effectively reduce sound reflections, creating a calmer, more comfortable environment. Whether for a home office, commercial space, or entertainment area, these panels provide a seamless blend of function and style. DIY-friendly and precision-engineered, they ensure a hassle-free installation with a polished, professional finish—no expert required.

Why Choose Our Acoustic Slat Panels?

Premium Look

Luxury timber veneer at an affordable price

Eco-Friendly

Sustainable PET fibreboard backing

Superior Acoustics

NRC 0.8 – 1.0 for enhanced noise absorption

Easy DIY Installation

No professional tools required

Versatile Use

Ideal for homes, offices, and commercial spaces

Define Your Look

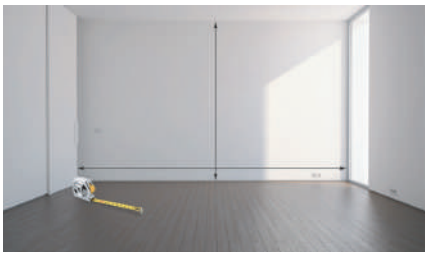

Natural Oak

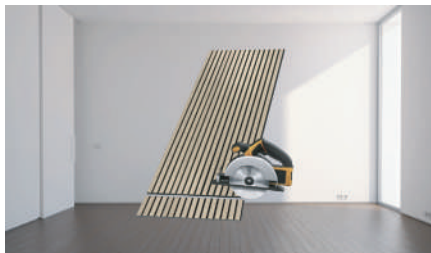

Walnut

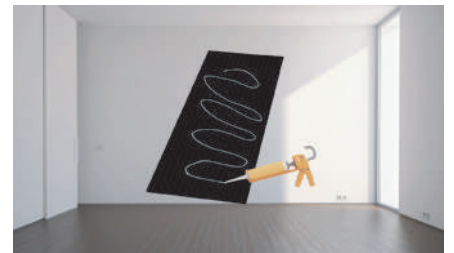

Dark Oak

Step 1: Clean the wall and measure the installation area

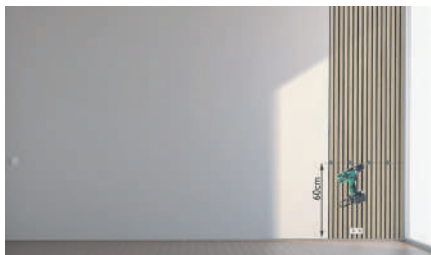

Step 2: Cut the MDF acoustic panel to the required height using an electric circular saw

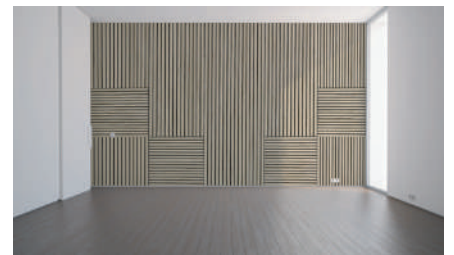

Step 3: Apply adhesive evenly to the back of the panel

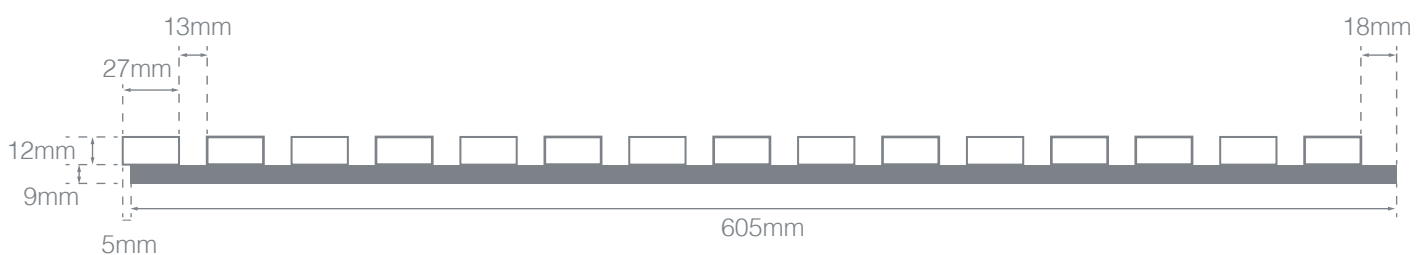

Step 4: Press the panel firmly onto the wall for a secure bond

Step 5: Fasten with screws every 60cm along the panel height

Step 6: Complete the installation with your preferred layout

Dimension: 2700mm x 605mm x 21mm
